

Old Dominion is a true American success story. Earl and Lillian Congdon founded OD in 1934 with a single truck. These humble beginnings firmly rooted OD's strong family culture from which would ultimately grow the nation's 3rd largest LTL carrier. OD's continued growth provides uncommon opportunity and security for thousands of employees, who are writing the next chapter of OD's story.

We have established a great culture at OD that is hard to find or replicate. From our humble beginning in 1934 until today, there is still a close bond between everyone here. Whether it is on the road, on the docks, in the office, or at one of our cookouts or many celebrations, there is an attitude of sharing, caring, and smiling. It is an attitude our customers and team members value and appreciate too... one that makes us more than just a freight carrier. It makes us a family. A family that helps the world keep promises.
